There are many people in the world who blindly follow anyone. Also, they admire and love that person no matter what he does. A role model is a person who inspires you to be like him.

Moreover, a role model is the person you love and want to be like him.

The missile man of India Dr. APJ Abdul Kalam is my role model. He is the role model for many people not because he has achieved great things in life and become the president of India but because of he dedicated his entire life to the country and its people especially school children.

Dr. APJ Abdul Kalam worked his entire life and achieved many great things in life. But several of his bigger achievements are the testing of Atomic bombs at Pokhran, development of the missile Agni and Prithvi, and becoming the president of India. But there is one more thing which is of great importance that is after his retirement from the presidential post he started teaching because it was his passion.

He always says that this young generation is the future of the country so guide them on the right path and they lead India to greatness.

We, at Tirumala Engineering College celebrated the birth day of Dr.APJ Abdul Kalam sir in the remembrance of the great indian and missile man of India. The faculty participated in the celebrations with immense pleasure and happiness as everybody admires the missile man of India. His everlasting qualities include a demonstration of confidence and leadership, communication with everyone, being unique, showing respect and concern for others, treating everyone equally, willingness to admit mistakes, and maintaining the same character inside or outside the job led him to president of India.

As we all know that Dr.A P J Abdul kalam was the 11'th president of india (2002-2007). Teaching is passion to him and he continued to be a teacher till his last breath. He enjoys spending a quality time with students and children. Students loved to interact with him in different areas of interest. Because of this reason government declared in 2010 that every year, october 15th will be celebrated as world students day.

Our Principal Dr.Y.V.Narayana garu informed the NSS unit to organize this event by involving the staff members in remembrance of Dr.APJ Abdul Kalam sir. Staff gathered at the main building of TEC and showered the flowers to the portrite of Dr.APJ Abdul Kalam. Dr.Y.V.Narayana garu suggested the faculty members and students to utilize the technology to achieve the heights in their life. He remembered the greatness of the legend and great indian and Kalam sir is the role model for all the indians. Few faculty shared their words on this occasion to express their views on Dr APJ Abdul kalam sir.
