Tirumala Engineering College organized the awareness program to the students of TEC in order to get the awareness among the student community. As the world is shivering from Novel Corona Virus and Covid cases are increasing day by day, every citizen needs to aware of the symptoms of corona virus infected and prevention measures to be taken. As a part of this, NSS Unit of Tirumala Engineering College organized an awareness program to educate the student group in this context. How this virus attacks human and how this spreads in the community. It is our responsibility to know the remedy and precautionary measures to face the deadly Covid –

19. The key points are as follows:

- ❖ maintaining the social distance,
- ❖ wear a mask,
- ❖ regularly wash hands,
- ❖ Stay in home,
- ❖ If any symptoms are there isolation
- ❖ Consult doctors if necessary
- ❖ Boost immunity
- ❖ Maintain hygiene in surroundings

Students participating in the awareness program

Tirumala Engineering College students participated in the awareness program to know the severity of the Corona Virus and let the nearby people need to understand the situation they are going face. Our dynamic principal Dr V.Y Narayana garu organized this program by initiating the NSS Unit of TEC immediately to educate the students about the deadly virus. He advised the students to stay safe and take precautions for hygiene in home and in college. He suggested to follow the guidelines given by Government of India regarding the Covid – 19 Virus. He explained the symptoms of this virus and medicines to take if they have any symptoms. Students to meet different people in their villages and caution them to take care of themselves as the virus started spreading in India.

Principal Dr. Y.V. Narayana garu talking about Covid – 19 and its prevention

NSS Volunteers of Tirumala Engineering College are advised to educate their nearby people to face the corona virus and its consequences. They were explained about the ways to overcome from the corona and measures to follow during the isolation. Everybody needs to concentrate on improving the immunity in them by following certain methods like yoga and taking the healthy food. Keeping the necessary medical kit readily in every house is required as the disease is spreading very fast and more number of people is getting infected by Covid – 19.
