India observes Engineer's Day on September 15 as a mark of remembrance and tribute to Mokshagundam Visvesvaraya, who is considered as one of the greatest engineers in the country. Vishveshvarya is also known as the father of Indian Engineering because of his enormous contributions and innovations in the field of engineering and development of society. India has been celebrating Visvesvaraya's birth anniversary as Engineer's Day since 1968. He went on to become India's most prolific civil engineer, dam builder, economist and statesman. He was one of the most prominent builders of India in the 20th century. When Visvesvaraya was the Diwan of Mysore from 1912 to 1918, he transformed the state into what was then known as a 'model state'. For his numerous industrial, economic and social projects, he was called "Father of Modern Mysore"

Visvesvaraya is credited with inventing the block system, automated doors that close the water overflows. He designed and patented the floodgates which were first installed at the Khadakwasla reservoir in Pune in 1903. Visvesvaraya established Government Engineering College in 1917 in Bengaluru which was later named University Visvesvaraya College of Engineering in his honour. Due to his outstanding contribution to the building of India, the government conferred 'Bharat Ratna' on him in 1955. He was also awarded the British knighthood by King George V, which put the honorific 'sir' before his name.

Our Principal Dr. Y. V Narayana garu instructed all the faculty members to assemble for the celebrations of Sir M Visvesvaraya. All the heads of the departments along with their staff members assembled in the seminar hall. The photo of Sir M Visvesvaraya is respected with garland by the principal sir. Principal sir addressed the gathering with beautiful words of Sir Mokshagundam Visvesvraya garu.
